Horizon Training Centre

9th Laparoscopic Bile Duct Exploration Course

Upper GI Trainees StR6-8 / Post CCT / Consultants

Thursday, 11th - Friday, 12th November 2021

Torbay Hospital

Integrated live link theatre

Wet lab facilities

This two day Royal College of Surgeons approved course concentrates on laparoscopic bile duct exploration. The first day covers evidence for practice, patient selection, surgical techniques, the 'pit falls' of starting a service, getting the right equipment. Also discussed is the management of acute presentation and integration of surgical service and ERCP. As well as lectures, live link surgery will be used for interactive discussion. The second day is workshop based concentrating on laparoscopic suturing, choledocosopes and bile duct instruments and a highly recommended hands-on LCBDE wet lab model.
